WHO WILL BENEFIT

- **New joiners in commodity trading companies** who are looking for a structured and comprehensive introduction to the industry and its main processes.
- **Students and recent graduates** interested in starting a career in commodity trading and wishing to build a solid foundation of knowledge.
- **Professionals working in non-trading functions** within commodity companies who want a better understanding of the trading business and how different functions interact.
- **Employees and managers of service providers to the commodity sector** (banks, auditors, law firms, logistics providers, insurers, risk management firms, etc.) who wish to better understand their clients' industry and operating environment.
- **Business owners, executives and managers of SMEs** involved in international trade who want to gain a basic understanding of commodity trading practices and market dynamics.

IMPORTANT: international participants

For participants enrolling from countries outside the European Union, the course is offered exclusively in an asynchronous online format, with access to the digital course content and learning materials.

OTHER COURSES

Certified Commodity Trading Specialist (CCTS)

This training program, accredited by **SAQ (Swiss Association for Quality)** in accordance with ISO standard 17024, aims to train professionals who are active in the field of commodity trading or in related services, as well as individuals who aspire to pursue a professional career in this sector.

The *Commodity Trading Essentials* course consists of a selection of modules from the CCTS and covers the various topics in a more basic format. For those who are interested, it is possible to obtain the CCTS certification in two stages: first by completing the Essentials course and then, for example the following year, the remaining CCTS modules.
